SAYS REDCLIFF HAS A GOOD SHOE FACTORY

Hudson's Bay Buyer Says It
Makes Best Shoes On The
Market—Leaves Big Order

The purchasing agent for the boot and shoe department of the Hudson's Bay Company's store was in town recently for the purpose of looking over the stock and plant here. He had just returned from an extended trip through the States and eastern Canada on the same mission and expressed himself as greatly surprised with the up-to-date plant and the excellent quality of the goods manufactured. He reviewed to said that although he had not visited larger plants he has seen none more modernly equipped and none turning out a better class of goods. He was especially taken with the men's work boots and said that he had never before seen an order at the factory for a full line of all the styles of boots made at this plant. He says that one of the best ways of building up the west and western towns is by patronizing western industries and more especially when they can produce such goods as are being produced at the Shoe Factory here. As a parting shot to the Review representative, the Hudson's Bay buyer said that you should be proud of and it is a disgrace to the town if there is a man in it who is not wearing Redcliff made boots.

Farmers Are Now Busy On The Land

The farmers have commenced seeding quite generally throughout southern Alberta, with the best prospects in the history of this section. Richard Porter, of Medicine Hat, who is cultivating his farm near Norton's, told the Review that he expects to conclude seeding 160 acres this week. It is estimated that there is 25 per cent more summer ploughed land in southern Alberta than there was last year. The total acreage under cultivation will be much in excess of anything previously attempted.

School Boards May Provide Text Books

An amendment to the education act was passed in the provincial legislature last week Wednesday. It provided that school boards may supply out of the funds, text books and school supplies for the pupils. It also provided that the school board may provide meals for school children, charging them for the same or charging nothing.

B. C. Town Is Wiped Out by Fire

Fourteen million feet of lumber, valued at \$250,000, the steamer Redcliffe, which sailed from the wharf at the Big Bend on the Columbia River, owned by J. H. Young, 17 houses, stores, dry kiln, four lumber sheds, stables, stores and warehouses, were swept away last Monday night when the town of Redcliffe, B. C., was ruined. The school, a few small houses, and piles of smoking lumber are all that remain.

Italian Ordered Not to Sail Now

Italian steamers in American ports have been ordered to figure out the Italian of Egypt, Hussein Kemal. As the sultan was leaving Abil Palce a native fire shot at him. This went wild and the native was immediately killed.

Attempted to Kill the Sultan of Egypt

An attempt was made at 3 o'clock yesterday afternoon to assassinate the sultan of Egypt, Hussein Kemal. As the sultan was leaving Abil Palce a native fire shot at him. This went wild and the native was immediately killed.

FULFORD FAMILY WHO MAKE BIG WAR GIFT

Mrs. G. T. Fulford, her son-in-law and daughter, Mr. and Mrs. A. C. Hardy, who have presented the Canadian government with \$100,000 worth to equip a Canadian regiment.

Vancouver Egg Wins From Broadway Store

In last week's Review the Broadway Department store advertised a small egg contest and offered a prize to the person sending in the smallest in a given time. The announcement was taken by one of readers in Vancouver and on Wednesday the winning egg arrived from that city. The following letter accompanied the egg: "WIN HARRISON, Esq., Broadway Department Store, Redcliff, Alta. Dear Sir: Just to show you and Redcliff people in general that Vancouver eggs are laying small eggs this year, I have sent one in competition to the one you have."

You can call in Doc Hall (or your worthy mayor or some other old friend) to judge, and should say egg win you can give the merchandise to the family down there you think needs them most.

In the meantime don't worry, women will all be laying larger eggs in the future than they have done in the past. You have a good town down there. It is well thought of out here on the coast.

Dirty Talk on Our Public Streets

If there is one thing more another that disgusts decent people it is the appearance of foul language on our streets. Redcliff has been fairly free from this class of things but occasionally one does cut loose. Last Friday night one of this class started for home about 10:30 and judging from his dirty, loud, filthy talk one might have thought the infernal region was turned loose for recess. Of course one does not expect much from a pig but a grunt, at the same time our main thoroughfares are no place for pigs.

Invasion of Holland Is Not Confirmed

There are persistent rumors in London that Germany had either declared war on Holland or that her troops had occupied that strip of Dutch territory that extends from the Belgian frontier on the coast to the river Scheldt. The reports lack confirmation and are not credited by those who should know if either action had been taken.

Submarines Have Sunk 36 Vessels

Thirty-six vessels were sunk and 82 lives lost in the German submarine blockade of the United Kingdom during the period from Dec. 31 to March 17, inclusive, according to figures announced by Sir Courtney Bennett, British consul-general at New York. In this period 8,022 vessels arrived at United States ports and 7,652 sailed therefrom.

A. SYMONS' HOUSE BURNED TO GROUND

The Review was a few hours late in getting to press this week and just as we were about to put the forms on the press the fire alarm was sent in from Fourth street where the private residence of A. Symons was on fire. The origin of the fire is a mystery. It started in the roof and had gained considerable headway before it was noticed. A terrible gale was blowing at the time and fanned the flames so that it was beyond any possibility of controlling it when the brigade arrived.

Mrs. Symons and her mother were alone in the house at the time and escaped only with the clothes they had on.

Redcliff Motor Trucks Sold to Government

The Redcliff motor factory received word from the militia department, Ottawa, last Monday, ordering three of the trucks made in the plant here. These trucks are to be used by the Canadian troops now in training and will go with them to the battle field. The trucks were shipped to Calgary last Wednesday. As the trucks made here are as good as any on the market it is expected that the government will purchase all that can be turned out at this plant. There is no reason why these trucks should not be used at all western training camps at the western training camps in Canada. Another order for a similar number for the Sewell camp near Brandon is expected in the near future.

Easter Sunday Fittingly Observed at Churches

Easter Sunday was very appropriately observed in the churches here. Good congregations attended all the services. Owing to a change in the pastore at the Baptist church there were no services in that church last Sunday.

At the Presbyterian church the morning service was taken up entirely by observing the sacrament of the Lord's supper. The sermon and singing were by the choir. In the evening the service throughout was of a resurrection nature and special singing was rendered by the choir.

At St. Andrew's church holy communion was administered at the 8 o'clock service at which there was a record attendance.

The 11 o'clock service was fully choral, the special song for the service by Frank Allen being beautifully rendered by the choir. The well known Easter hymns were also heartily sung by all present. At the afternoon Sunday school rally the fort roll was called. The children presented their lesson books and were being presented with a certificate of baptism. The evening service was also fully choral. The anthem, "Hallelujah Chorus," was splendidly sung by the choir. Special praise for Easter day with other appropriate music were also rendered. The vicar, Rev. H. C. B. Gibson, also preached a very appropriate sermon for the occasion. We understand that the offering for the day far exceeded the expectations of the wardens.

St. Ambrose W. A. Elects Its Officers

The annual business meeting of the Church of England Women's Auxiliary was held on Wednesday, April 7 at the vicarage, when there was a good attendance of members. An amusement committee with Mrs. W. Wheeler as chairman, and a visiting committee.

Mr. Hackett read a very interesting paper on the development of the "Women's Auxiliary to the Missionary Society of the Church of England in Canada," to give the society its full title. After a few remarks from the president the meeting closed.

RIFLE CLUB

As a great many citizens of Redcliff are desirous of forming a rifle club here, a meeting has been called for Thursday, April 15th, in the Men's Club rooms.

It is hoped that all former members of the rifle club and all those desirous of becoming members will put in here as at word as the project can be thoroughly discussed and a committee got together.

The meeting is called for 8 p. m., April 15th. Please make a note of this.

Shoe Factory May Get Government Order

Nelson Spencer, M. L. A., for Medicine Hat, who has just returned from Ottawa, states that "prospects are good for the Redcliff shoe factory securing a government order for boots for the divisions. He says that in the near future it is the intention of the militia department to issue orders for a large number of these boots and that as they are wanted in a hurry the orders will be distributed amongst all the factories in Canada. As the factory here is the only one in the province which has been highly praised by military men there is no doubt a good order will be given to the factory. The signor also stated that if the trucks already shipped from here prove satisfactory additional orders will also be given at once."

With regards to the C. N. R. construction in the west Mr. Spencer said he was informed on reliable authority that if any work was done on the C. N. R. lines in the west this year a portion of it at least would be on the Redcliff-Hanna line.

Casualties Reach Terrible Figures Now

The largest total of casualties yet recorded in any of the official lists was shown in a statement given out March 22. This list is believed to cover the losses sustained in part of the sanguinary fighting which ended in capture of Neuve Chapelle last month. The list includes the names of 1,845 non-commissioned officers and men of several different regiments killed, wounded 750 men, 2,107 wounded.

Local Masonic Lodge Holds Social Evening

The members of Quarry Lodge, A. F. & A. M., held a social evening in their lodge room last Monday evening to which they invited their lady friends. The evening was a good time and one of the joyous evenings of the season was spent. A musical program during the first part of the evening proved most entertaining for the guests, after which refreshments were served. Dancing was then the order of the evening and in this the excellent music furnished by the Redcliff orchestra left nothing to be desired. The evening was brought to a close by singing Alld Lang Syne and God Save the King. This was the first affair of this kind the lodge has ever had but it is such a decided success that there is no doubt similar events will be held quite frequently in the future.

S. A. Land Co. May Resume Construction

D. W. Hays, chief engineer of the Shoshone-Alberta Land Company, has gone to Ottawa to endeavor to make arrangements for the resumption of the company's irrigation work. If he is successful employment will be provided for two or three hundred men, which would be a great boon at this time. The former president of the company, J. D. MacGregor, of Brandon, will shortly make a trip of inspection over its lands.

Soldiers At Front: May Yet Have Votes

Hon. C. J. Doherty's bill, by which it is proposed to extend the franchise to Canadian soldiers, received a second reading at midnight after a spirited debate in the house. While the debates were apparently agreed that as a matter of principle the soldiers should vote, they failed to agree as to the practicality of taking the vote in the trenches.

Premier Borden, Hon. C. J. Doherty, and Hon. Arthur Meighen and other Conservatives were certain that the vote could be taken, while Sir Wilfrid Laurier, Hon. Wm. Pugsley and other Liberals were equally sure that the details of the measure were impracticable and questioned whether it was worth the trouble of depending upon to take the vote honestly.

Attack Dardanelles by Land and Sea

The people of Europe are expecting to witness a renewal of the attack on the Dardanelles, this time with land and sea forces. But the only news from that part of the world to date is that Turkey has decided to call up all men capable of bearing arms, an indication that she expects the Allies to be bringing exceedingly strong forces against her.

ADDITIONAL LOCALS

The illustrated lecture given by Rev. H. C. B. Gibson in the Empire theatre on Good Friday evening attracted a good crowd who heard one of the best addresses we have had in Redcliff for some time. The speaker gave a most interesting, instructive and inspiring review of the life of Christ just prior to His crucifixion. The most important events of which were illustrated on the canvas. During his remarks Mr. Gibson brought out many lessons from the words and teachings of Christ while on earth and applied them to the everyday life of His followers today. During the evening a number of appropriate hymns were sung heartily by all present.

Miss Ogden, of the public school staff, met with a painful accident while away on her Easter holidays. She was boarding the train at Fischer Creek and stepped on the convention at Calgary when she slipped and fell, giving her ankle a bad strain. She was taken to the hospital where she will be confined to remain for several weeks. Principal Liggett is now looking for a teacher to take her place till she recovers.

A few friends of Mr. and Mrs. A. W. Woodcock gave them quite a surprise last evening by calling on them in a body to wish Mrs. Woodcock many happy returns of the day, the occasion being her birthday. A very pleasant evening was spent, cards and music being the order of the evening.

OIL DRILLING NOW STARTED AT REDCLIFF

Drill on Bank of River—Will
Go Down 5000 Feet If
Necessary—Think There is
Oil in This District

The Liberty Oil Company, Limited, have completed their preliminary arrangements and commenced drilling operations yesterday. They are prepared to drill to a depth of 5,000 feet and intend to exploit the Redcliff district thoroughly. A number of gentlemen have been filing on oil leases in this neighborhood during the past week and there is evidence that the conviction is growing that oil will be found in commercial quantities in this district. Needless to say the discovery of oil in the Liberty well would be a significant event for Redcliff, as their well is on the banks of the river just at the outskirts of the town.

Says East Has Great Faith In The West

Mr. C. P. Jamieson, of Medicine Hat, was a business visitor in town today. Mr. Jamieson has just returned from a trip east and informs us that a great feeling of optimism prevails. Several of our leading men, including the minister of finance, with whom he was in conversation, expressed great faith in the future of the west and that we were on the threshold of a great wave of prosperity. The movement to the land, he says, is being commenced from all quarters. It is felt that manufacturing opportunities will be greatly increased after the war and the Hon. G. E. Foster, minister of trade and commerce, is making a special investigation along these lines.

CHURCH NOTICES

THE PRESBYTERIAN CHURCH. At the forenoon service in the church at 11 o'clock the pastor, the Rev. G. Lawson Gordon, will preach on "Our Lord teaching Humility." In the Empire theatre at 7:30 the subject will be "Lessons from the Springtime." Seats free; all welcome.

Sabbath school in the church at 2:15; on Fifth street northwest at 8 o'clock. On Wednesday evening at 8 o'clock there will be an address in the church on the religious and unreligious, foreign lands, the war, and America. No collection.

On Thursday the Ladies Aid meets in the church at 3:30, and the choir at Mr. Stone's at 8 p. m.

Communicants who were not present last Sabbath forenoon and their names continued on the communion roll will return their cards immediately to the pastor or one of the elders.

CHURCH OF ENGLAND.

Friday, April 9, 10:30, litany and intercession for the war at 7:30 p. m. Choir practice at 8 p. m. Sunday next, being Good Friday, the service will be at 11 o'clock. Day of holy communion at 8 a. m.; matins at 11. Sunday schools at 2:30; evening school at 7:30.

Wednesday, W. A. at 2:30; social evening in the parish hall.

BAPTIST CHURCH.

There will be no morning or evening services in this church next Sunday.

Sabbath school will be held in Reid's hall on 11 a. m. till 12. Note the change from the hour of meeting.

UNION BIBLE CLASS.

A large number of people last Sabbath afternoon and a profitable meeting was held. Next Sunday in the Presbyterian church at 3:30, the class will study the 23rd Psalm, the Shepherd Psalm. No part of the Scripture has been more valued than this. Can you read it with your eyes shut? Can it tell you can.

Having a garden? Be sure and sow Fryer's famous seeds, and get them at Blundell's, First street.

FRIDAY, APRIL 9, 1915.

EFFECT OF THE WAR.

It is, possibly, not the most pleasant thing in the world to contemplate the advantages of any country or people because of war, and more especially when that war is of such magnitude and so terrible as the one now in progress in Europe. However since we have not caused the war and since we cannot stop it, it is only natural that we on this continent consider its effect and more especially as those effect concerns us. There appears to be no doubt that the effect will be to our advantage in many ways.

E. Ashmead Bartlett, the noted English war correspondent, paints a doleful picture of the future of the warring countries. Much that he has to say is of special interest to Canada in view of the many immigrations of greatly increased numbers which appears periodically in various papers and periodicals.

He asserts that not only small towns, but also large and populous industrial centres have been razed to the ground in the war zone. The markets of the world must be supplied with the commodities which these industries provided and the countries which are in the best position, financially and otherwise, to take advantage of this opportunity will undoubtedly reap the benefit. Canada and the United States are in a better position in this respect than possibly any other country in the world.

Again, there is the question of agriculture. When the Belgians broke down the barriers of the Yare, and flooded their country rather than yield another foot of their soil to "Kultur", they deliberately ruined, experts say, vast tracts of their most fertile soil for probably 30 years. In other countries farmers and their sons are now and have been for some time on the firing line. As a result their land is lying idle and will probably remain so for some time after the war is all over.

The taking away of almost the whole male population of a continent from their usual occupations has not been experienced before during modern times and no one can foretell the extent of the evils that may follow in its train. It will be far more difficult to get them contentedly back to their work than it was to take them from the plow or the factory. For millions there will be no work to return to; for millions they will be homes to return to—only fields of overgrown weeds and ruins. Then will the full measure of the misery caused by war be revealed.

The problem caused by the mass of this human wreckage which will be thrown up after Armageddon is terrible to contemplate.

THE BI-LINGUAL MENACE.

The Alberta Legislature has just placed itself on record as being resolutely opposed to any form of bi-lingual teaching in the public schools of this province. Both government and opposition members strongly supported the motion which carried without a division. Several French-Canadian superintendents of the government found it convenient to be absent, but this made no difference. Two or three members in a house of 56 are negligible consideration.

The carrying of the resolution by a unanimous vote was considered easy by the consistent policy of the government in this

matter. As in other provinces there has been in Alberta a demand for bi-lingual teaching. Some of the nationalities have been very insistent in the presentation of their views. The Minister of Education Boyle has put his foot down in no uncertain manner, and by his firmness has imparted both to the government and to the members of the legislature generally a courage that was much needed on this question.

THE SEED GRAIN.

There appear to have been some complaints about the quality of the seed grain furnished by the government to the farmers this spring. So far, however, there has only been one complaint registered with the officer in charge of the distribution at Redcliff. We understand that at Bowell a few farmers would not accept the grain. Like all other matters of this kind

party papers and party workers are trying to make political capital out of the affair by blaming the government for sending out inferior seed. If any blame can be attached to our governments in the matter both parties are equally at fault. The grain was purchased by appointment of the Dominion government and was inspected and passed by the provincial grain inspector, an appointee of the Provincial government. In trying to lay the blame at the door of our governments, the farmers, the party papers and the party workers, to our mind, bartering on the wrong tree. It is not our intention to try to shield either party but from this distance it looks to us as if the grain really is not what it should be—that the blame surely rests with those who are responsible for the purchasing of it. And if it can be proven that any person or any company has been guilty of trying to make huge profits out of the people during these trying times we should pay that they should be punished to the fullest extent of the law. But are things as bad as some would have us believe in regard to this seed grain?

The Review has made enquiries from a number of farmers about this grain and opinions seem to be divided. The majority of those to whom we have spoken seem to think that under the circumstances the seed is as good as could reasonably be expected. This is an exceptional year in the history of the world. Grain of any kind is scarce now not only because of the war but also because of crop shortage in the grain producing countries and in this respect Southern Alberta has been no exception. As a result prices are away up and seed grain of any kind is scarce.

Those who expected the government to not hand picked grain this year would, in all probability, be the first to complain at the price it would be necessary to charge for it.

In conversation with one of the most prosperous farmers of this district we were informed that while he had sown better seed, he had also sown much worse, and that from worn seed he had reaped a harvest of 30 bushels to the acre. Another farmer told us that he had tested the government seed and found that every kernel germinated.

As we said before it is not our intention to try to shield any government. On the contrary we would be the first to criticize them if we were convinced they were doing wrong in this respect. The object of this article is simply to impress upon our readers that there are many things to be considered at the present time if each is to play his part in helping the Empire through this great struggle.

Since the outbreak of the war there have been all kinds of commissions appointed to investigate war purchases by the Canadian government. Certainly those who have been made up of the country at a time when the public is giving evidence of a spirit of genuine patriotism, deserves but scant consideration. Army contractors should be quite as patriotic as the men who stand in the trenches. A few stiff sentences would have a salutary effect.

'King Albert I. of Belgium celebrated his fortieth birthday yesterday. He is a monarch almost without territory, but he is loved by his own people with a devotion scarcely equalled in the history of the world and is admired by all for his courage, sympathy and modesty.'

The medical health officer is of the opinion that now is the time to start the annual crusade against the flies. This he urges the citizens to start right away and kill off the early flies. One fly destroyed now is equivalent to thousands of flies destroyed later on in the year, he says. If you kill the flies off now before they lay their eggs there will not be nearly so many flies later on in the year.

William Jennings Bryan considers the advocacy of temperance so important just now that the other day he left the office of Secretary of State, at what must be considered a critical time, in order to address a great temperance gathering in Philadelphia. As a direct result of his address 12,000 men signed the pledge.

SEASONABLE HINTS

There has been issued by the Department of Agriculture through the branch of the experimental farms, a brief pamphlet containing seasonable hints for the information of stock raisers, grain growers, bee-keepers, poultry raisers and gardeners. While it contains only 12 pages, it is replete with suggestions and recommendations made in the hope that some of them at least will be helpful to every reader who secures a copy. Practically all of the suggestions made and recommendations given tend towards the increasing of production or the lowering of the cost of the articles produced.

Copies of this pamphlet are being sent to those whose names are on the mailing list of the Department of Agriculture, but the pamphlet is also available to others who make application to the publications branch of the Department of Agriculture, Ottawa.

SUGGESTS THAT GOVERNMENT TAKE OVER LICENSING.

The Government is being followed, for, in addition to Earl Kitchener, all the cabinet ministers in London announced to Chancellor Lloyd George last Saturday, according to the Daily Mail, their intention to follow the king's pledge to abstain from alcoholic liquors during the war, if it is thought necessary.

Among other prominent men who will do likewise are Earl Balfour, Sir Spensley, Sir Charles W. Mac-Ara, chairman of the committee of the International Federation of Master Cotton Spinners and Manufacturers' Association, and heads of many of the big manufacturing firms. Earl Grey suggests that the government should take over all the license houses in specified districts, as it has already taken over the railways and factories, giving the license holders a fair compensation and either closing the houses altogether or administering them on reformed principles.

CONSTANTINOPLE'S NEW NAME.

It is said that the Russians already have selected a new name for the Turkish capital. After its capture by the allies it will no longer be Constantinople, but Czigoroff, or the Czar's city, which is rather a significant name. Mr. George Kennan, who knows Russia better than any other American writer finds in this name, used by the Emperor himself in a recent proclamation, a strong suggestion that Russia will not only expect to obtain possession of Constantinople, but to make it a Russian capital. "He hopes not only to control the outlet of the Black Sea, but to take his seat in the 'Czar's City' on the throne of a new dynasty."

WHY THE CAMPAIGN MUST BE CONTINUED

Financial Reasons For Continuing the "Made-in-Canada" Campaign.

Dollars at Home

Here are financial reasons why the "Made-in-Canada" campaign must be continued:

Imports into Canada, 1913 \$103,023,780

Exports from Canada, 1913 \$23,222,245

Balance against us, \$79,801,535

Interest on our borrowings, \$10,000,000

Total settlement, 1913, \$89,801,535

Paid by us in cash, \$148,389,243

How do we do it? Very simply—our borrowings \$498,000,000

Last year it was pretty much the same thing over again. So we borrowed some more. But this (please) borrowing wasn't nearly so easy; we couldn't get nearly so much.

This year (1915) we'll have to be able to borrow a dollar abroad. England and France need their money for other purposes.

What's to be done? For the benefit of Canada, we mustn't fall in with our obligations, and there's still that \$800,000,000 of interest to pay!

Turn it over carefully in your mind and you'll soon be convinced there's only one possible way to meet the situation. We must import less and export more. In the words of Hon. Mr. White, Finance Minister, we must produce, produce, and keep on producing!

The more you think of it, the clearer it becomes that now and always it has to be "Made-in-Canada."

TEACH THE CHILDREN TO ASK FOR "MADE-IN-CANADA" GOODS

THE BEST EXAMPLE

Show Our Greatest Canadian Corporation Helps the "Made-in-Canada" Movement

The Toronto "Globe" had an article on January 29th describing the policy of the Canadian Pacific Railway with respect to the purchase of "Made-in-Canada" goods. What the article reports particularly is the steel industry. It is a well known fact that the C.P.R. has always been one of the most substantial and consistent supporters of the purchase of their supplies wherever possible in Canada. They know that by spending their money in Canada it will come back to Canadians and to them quickest.

Helps Workmen

To quote the "Globe" article: "From the time the steel works at the Canadian Pacific started as a young industry to make steel rails, the Canadian Pacific Railway Company has been a consistent customer of that institution. It has bought rails on the other side of the line only when supplies were not available on this side. And, sometimes, has paid a higher price in the purchasing of home industry. But the C.P.R. has not been in the least less in the buying of steel rails from the Canadian Steel it helped materially in the maintenance of several hundred workmen, whose economic welfare, in turn, meant traffic to the railway which carried supplies of various kinds to their towns."

Agitation Is Necessary

In short, the purpose of the "Made-in-Canada" movement is to find that common relationship which exists between the C.P.R. and the Canadian steel industry. Just now it is very necessary that every wholesale and retail establishment through which the consuming public must purchase their supplies of food, clothing, and shelter should sell in the largest measure possible, goods made in Canada. The Globe already has endeavored to point out that the salesmen have more practical part to play in the furtherance of home industry than the purchaser. If the wholesale and retail trade of the country would undertake, in honor bound, to sell Canadian-made articles instead of those of foreign manufacture, wherever the former were available, and thus to help the Canadian character of their stocks to the utmost, all the agitation urging the consumer to buy "Made-in-Canada" goods would be unnecessary.

Interesting Book on Canadian North Land

Realizing that the reserve of vacant land in that portion of the Canadian West, known as "the fertile belt" has during recent years been rapidly settled, the Department of the Interior has published a very comprehensive and elaborate compilation of all authentic information available regarding the natural resources of the unexplored regions of Northwestern Canada.

For some time past there has been a demand for a publication of this nature, and the Department, which is known as "The Unexplored West," is designed to meet that necessity. It gives in very interesting form facts regarding the climate, soil, timber, rivers and lakes, minerals and land, and game of the little-known regions of the Peace River District and Northern Alberta, Saskatchewan and Manitoba, east from the Rocky mountains to Hudson Bay.

The report is profusely illustrated throughout with over 100 interesting pictures depicting the agriculture, flora and possibilities of Canada's fertile northland. A copy may be procured free of charge upon application to F. C. Lynch, superintendent of the railway lands branch, Department of the Interior, Ottawa.

When sending money to Europe buy Dominion Express Foreign cheque. A. J. Nicholson tells them.

General News Notes

From Various Points

There will be no change in the method or time of voting in Dominion elections for the Dominion parliament. Amendments were presented at the house of commons but all were withdrawn.

Five American army officers who have been attached to the German military forces in the capacity of observers, were ordered by cable last Saturday to return to the United States at once. The order was a surprise as they expected to remain in Europe until the end of the war.

According to the London Times the war were selling for eight shillings, and a fair sized dog for a sovereign in the Præmial most shops just before the final capitulation.

While the common soldiers were starving, the Austrian officers lived their accustomed life in Præmial. The ultimate surrender was due to the fact that the garrison was in the state of starvation and the ultimatum was merely threatened with curtailment.

Field Marshal von Hindenberg is still determined to avoid a grand battle between the Nemen and Vistula. Since the destruction of Emperor Wilhelm's field depot near Kivaria, the Germans have begun to evacuate Augustow.

The British steamer Lockwood was torpedoed by a German submarine Friday night off Star of Inverclyde shire. The members of the crew were saved.

The double failure of the German and Austrian obstructive minor tactics in the extreme north and south along the great preparations for the Russian advance to proceed steadily before the fullest development. The equipment for life in the trenches and re-equipment of the seasoned troops are reaching their destinations and the general Russian dispositions are nowhere disturbed.

Notwithstanding the dangers of the submarine war some of the British Isles, the Cunard liner Lusitania, sailing last Saturday from New York City, had an exceptionally large passenger list. There were more than 200 first class passengers, and 175 in the second cabin. Among them were Richard Croker and his wife, and Mrs. Lida Vanderelie, bride of the Belgian minister of state, who has collected nearly \$100,000 for the Belgian relief fund.

All motor manufacturing plants in Scotland have been placed under government control in pursuance of the government's plans to accelerate the supplying of war material. These plants will be in future run night and day in the production of motor lorries for the transportation department.

General Joffre has predicted a termination of the war in victory for the allies, according to a dispatch from Dunkirk.

The fluctuating struggle in the Carpathians seems to be nearing its decision, according to dispatches reaching London. By successive rushes amid ice and snow, Russian troops are said to have carried a series of Austrian lines, and in the view of British observers, they did fair soon to break through in force between the Lushow and Uruck passes.

The China-Japanese negotiations according to reliable information have terminated. The Chinese government agreed to extend the Port Arthur lease for 99 years. It recognized also that Japan has all the rights in Shantung province previously belonging to Germany, and conditions are laid down that Germany shall never have the right to acquire colonies or spheres of influence in China.

Giuseppe Berlingo, editor of the Turin Stampa and also a member of the Italian chamber of deputies, told the Associated Press that he had a deep conviction that Italy would begin war against Germany and Austria before the end of April.

The Hon. W. J. Hailey, M.P., authorized the appointment of a commission of five members to administer the liquor act in Ontario passed the legislature this week.

The first aviation school in Canada will open at Lawrence park on Tuesday. It will be under the direction of Captain R. J. Janney, squadron commander, Royal Canadian Air Corps. Lieut. Harley Stibb, of Toronto, will look after the military and of the training, and some other instructors will soon arrive from England and the United States.

"The defence of the Carpathians is the last effort Austria-Hungary can make," says the London Times correspondent, with the Russian forces, telegraphing from Lvoff. "If her troops fall there only negotiations can prevent the Russian invasion of Hungary."

The Calgary terminal elevator will be finished by August, in time to handle the fall crop, according to an announcement made in the house of commons last Saturday by Hon. Sir George Foster.

According to statistics there has been during the last four months less beer drinking, but a great increase in consumption of spirits. This is accounted for particularly by the heavy duty placed on beer in the last budget. The increase in spirit drinking as shown by the statistics was especially noticeable during February and March.

A Belgian military decoration has been bestowed upon General Joffre by Belgian King Albert, as well as decorations to others who have won recognition.

Active preparations for a final attack upon the Dardanelles are being pushed forward. For obvious reasons it is impossible to say what these consist of, but from what is seen it is clear that nothing is being left to chance, and the dimensions both naval and military, of the operations involved are thoroughly recognized.

The English press gives publicity to the losses of the owners of horses being made in Canada for the British and allied armies. Up to the beginning of February, 30,000 horses had been bought, and the government purchasing agents were still looking for more.

A dispatch from Malmo, Sweden, asserts that two German coasting steamers during the last few days have struck floating mines and sunk in the Baltic sea in immediate proximity to the route between Trellborg and Seland.

The Russians have taken 200,000 prisoners on the Carpathian front since the advance began on January 21st. For some time the Russians have taken prisoners in the Carpathians at the rate of an army corps every fortnight.

There was a remarkable scene in Dublin a few days ago when John E. Redmond, the Irish Nationalist leader, reviewed 25,000 of the Irish National volunteers, and in speech, said that of the Nationalist and Ulster volunteers who had organized to fight one another, more than 50,000 were now fighting side by side on the continent or training to do so.

A band of the Irish Guards, which even a few months ago would have received an unfriendly greeting anywhere in Ireland, arrived in Dublin yesterday on a recruiting tour, and was cheered as it marched to the mansion house, playing "St. Patrick's Day."

A number of German officers who are interned in Maidenhead, England, were discovered trying to escape. They had been allowed to build a flower garden along the wall. Working at night they had tunneled through the concrete foundation, and built a tunnel underground about 12 yards long.

The military authorities have received precise information concerning the results of the bombardment carried out by British aviators in Belgium on March 26. A dirigible barge at Berghen Ste. Agathe was seriously damaged as was the dirigible Zeppelin, therein. As the Belgian Antwerp naval construction shipyards were gutted, two German submarines were destroyed, and a third damaged, while 40 German workmen were killed and several wounded.

NO MIDDLEMEN FOR SOLDIERS' CANTERNS. General Sam Hughes has issued orders that all middlemen are to be eliminated in future in the running of canteens for the Canadian soldiers in remaining camps. "There will be no more middlemen such as were at Valenciennes," said the minister. "The canteens, which will remain dry, will be administered and carried on under the supervision of the commanding officer, and all profits will be for the benefit of the funds of the soldiers."

The boys will get all benefits whether in lower prices or in donations for regimental funds. Dry canteens will be established at all military camps where units are in training for active service, such as at Toronto, Kingston, London, Windsor, Calgary, Edmonton and other points. Later, when the men are transferred to larger camps such as Niagara, Sarnia and Valcartier, the canteens will be run in the same manner."

Willard Is Now Champion Heavyweight

Jack Willard, the cowboy, is the new champion heavyweight of the world. He knocked out Jack Johnson, the black champion, in the 26th round of their championship bout at Havana last Monday. It was John's fight all the way until the 22nd round, when his vitality left him because of the hard pace which he carried throughout the early rounds. Then the giant plainsman opened his heaviest attack and in the next few rounds condensed the fight away from the black man and toppled him over with rights and lefts to the body, and blows to the face. The knockout was a terrific right swing to Johnson's jaw.

Seventeen thousand persons saw the combat and when Johnson crawled up on the floor from a fierce right swing to the jaw, the crowd burst into the ring. Johnson took the referee's count while lying on the ropes but the moment after Referee Welch had given the decision the former champion got to his feet in time to escape the wild rush of excited spectators. The great crowd rushed into the ring and menaced Johnson. Several squads of soldiers hurried on the platform and cleared the crowd away to protect the fighters.

Fifteen Thousand Letters Sent In

The first morning mail to reach Chancellor of the Exchequer Lloyd George brought about 15,000 letters, virtually all dealing with the abolition from drinking in England. This number indicates that the day's total of letters will be in excess of 25,000.

These communications were received by the chancellor in answer to the full-page appeal appearing in the newspapers urging citizens to write him in favor of absolute prohibition.

C. P. R. CANNOT RAISE RATES YET

The railway commission has ordered that the Canadian Pacific Railway should not be permitted to raise rates until the proposed advances in commodity tariffs pending a decision in the application of the Canadian Freight Association for permission to make a general increase in tariffs on railway-lines in Eastern Canada. The latest hearing of the eastern rates case was in Toronto last week and the above order has just been made as a result of what was brought forward there.

League Football Schedule Arranged

The Medicine Hat-Redcliff Football League executive met on Monday evening and arranged a suggested schedule of games to be played for the coming season.

The secretary was instructed to include a "Vol of Honor" in the league handbook for this year, enrolling the names of all those players who have acted for active service at the front.

The following is the schedule adopted:
April 15—League, Calles vs. Moose.
April 20—League, Redcliff vs. Nomads.
April 27—League, Moose vs. Calles.
April 29—League, Moose vs. Redcliff.
May 6—League, Redcliff vs. Calles.
May 11—Cup, Moose vs. Nomads.
May 18—Cup, Moose vs. Calles.
May 20—League, Nomads vs. Redcliff.
May 27—Cup, Calles vs. Nomads.
June 1—League, Redcliff vs. Moose.
June 8—Cup, Calles vs. Redcliff.
June 10—League, Nomads vs. Moose.
June 22—Cup, Calles vs. Moose.
June 29—Cup, Calles vs. Redcliff.
July 6—Cup, Nomads vs. Calles.
July 13—League, Moose vs. Nomads.
July 20—League, Redcliff vs. Calles.
July 27—Cup, Nomads vs. Redcliff.
Aug. 3—League, Calles vs. Nomads.
Aug. 12—League, Calles vs. Calles.
Aug. 19—Cup, Redcliff vs. Moose.
Aug. 26—Cup, Nomads vs. Moose.
Sept. 3—League, Calles vs. Redcliff.

Change in C. P. R.

Time Table May 20

The C. P. R. summer time table, it is understood, will take effect about May 20th and will mean the replacing in service of trains No. 13 and 14 which are the Slow St. Paul trains. The train service on the Suffield branch will also start with this time table, and also the Hainsman-Calgary local.

Trains Nos. 511 and 512 between Medicine Hat and Calgary, which had all gone changed to run tri-weekly, have been placed back on the old schedule and now run daily except Sunday.

A battle with 40,000 troops engaged, and which may be a decided action in the war between the Carranza and Villa factions in Mexico, is in progress or impending near Irapuato, in the state of Guanajuato.

ITEMS OF LOCAL INTEREST

Gibson & Tupper have nice line of new spring goods.

Mr. Tupper, of the firm of Gibson & Tupper, left last week for Nebraska with his wife and family.

Football players—There will be a practice on the grounds on Saturday afternoon. All players are requested to turn out.

Nomination day to fill the vacancy in the council and also on the school board will be held next Monday, March 15th.

Services were held in both the Presbyterian and English churches on Good Friday and were attended by good congregations.

Miss Eva M. Haves, of the High River teaching staff, is spending the Easter holidays in town, the guest of her cousin, Mrs. R. H. Liggett.

When you are in need of prints, gingham, crepes, pique, Indian head or kindergarten cloth you can get them at Gibson & Tupper's.

It now looks as if the B. C. election are still some distance away. Premier McBride has gone to England to try to sell some railway bonds.

All of Rev. H. V. Hinkle's friends are invited to attend a farewell party given in his honor at Reid's Hall Saturday evening, April 10th at 8 p. m.

Masters Keith and Cedric Hopper, of Medicine Hat are spending their Easter holidays in town the guests of Langley Store.

Mr. Sneath, provincial inspector of municipalities, was in town this week on a tour of inspection. He found everything in good order at the town hall.

Two men and one woman were asphyxiated in a coal shaft in the

flues near Willow Bunch on Friday of last week. It was a small mine used by farmers of the district. A young man and his wife lost their lives in an attempt to save the woman's father who went into the shaft first and was overcome by the gas.

Mr. Roy, who has been in the Medicine Hat hospital for the past month suffering from a broken leg, has sufficiently recovered to return to town again.

W. Lorimer, who has been employed in the Ornamental Iron plant for some time, has secured a position with the Imperial Oil Company in Winnipeg, and left for that city last Monday.

See the Tube 'n' and new lace cloth at Gibson & Tupper's.

Mr. Campeau, who has been running a butcher shop here in partnership with J. Livingston, has sold out his interests and is now employed at the City Meat Market.

A. Kennedy, who has been in Toronto for the past few months, returned to town this week to take charge of the pattern shop at the Ornamental Iron plant.

Miss Gordon, Miss Dickie, Miss Wagstaff, Miss Ogden and Mr. Colter, of the public school staff, are in Calgary this week attending the teachers' convention. The children in these rooms are having a holiday as a result. School was carried on as usual in the other rooms.

Mr. Liggett, principal of the school wishes to remind parents that children intending to start to school this spring must be in attendance before April 26th. Otherwise they will not be able to start till after the summer holidays.

The war tax will come into effect on the 15th day of April, and on and after that date all letters and cards mailed in Canada must bear a one cent war stamp in addition to the regular postage. Neglect to attach the necessary tax will mean that mail matter will be sent to the Dead Letter office and returned to the sender in

due course, involving delay and inconvenience.

There are evidently a number of people in town who are not aware of the fact that it is against the law to send money in a letter. Money orders or postal notes must be secured for this purpose. Any one found guilty of this offence is liable to a heavy fine.

The first schedule football match of the season in the Medicine Hat Redcliff league will be played here on Tuesday, April 20th between the Hat Nomads and the local Uniteds. All local players are asked to turn out Saturday afternoon for practice.

Mr. and Mrs. Dr. C. H. Kohler and family arrived in town last Monday evening from California where they had been spending the winter. They remained here for two days and left again for Minneapolis. Dr. and Mrs. Kohler expect to return to Redcliff in a few weeks and will spend the summer here.

There was an exceptionally large crowd at the Union Bible class meeting in the Empire theatre last Sunday afternoon and a most profitable afternoon was spent. Special music was furnished by the orchestra which was much enjoyed by all present.

The Easter dance held in the Empire theatre last Monday evening was one of the best dances of the season. There was a large crowd in attendance and as the music and floor were excellent a most enjoyable evening was spent. During the evening a dance lunch was served by the ladies.

Several complaints have been registered at this office about delivery rigs and drays driving through back yards and starting. Now that our citizens are starting to clean up their yards and put things in shape for garden the drivers of these rigs should be more careful. They should be compelled to keep to the streets and lanes instead of cutting across lots.

We are informed by the health officer and pound keeper that from now on these officials intend to prosecute all those who allow their cattle, horses, pigs or hens to run at large. It is impossible for those who take an interest in their gardens or lawns to make much of a success of them if their neighbors' stock is allowed to run over them and it is to protect and encourage all who do that the officials intend enforcing the bylaw to the letter.

The room in the field block which has been used to accommodate the school children has been discontinued and all the children are now in the school. Miss Dene, who had charge of this room, left this week for Jensen where she has secured a position.

Miss Rutherford, of Medicine Hat, spent a few days in town this week, the guest of Mr. and Mrs. John Rutherford.

If you haven't a garden yourself this summer do the next best thing and take your hens, cows, pigs or horses don't spoil your neighbors.

Hugh Doherty has resigned his position as manager of the Crown Lumber Company at Brooks and will in future reside at his former home in South Dakota.

Mr. and Mrs. H. Oswald, of this town, have received word that their son, Harry, has recently left Toronto for France, to fight for his country.

Wm. High left yesterday for Osceola, Sask., where he has secured the contract for several new buildings.

The Easter Sunday school services in the Baptist church were largely attended last Sunday. A program, consisting of hymns, anthems and recitations all bearing on the resurrection was given by the children.

Don't forget that Gibson & Tupper have the famous Perrin gloves for men and women.

The body of George T. Brown, of Medicine Hat, who was last seen alive on February 13th, was found on Police Point on Tuesday afternoon. There was a bullet wound in the head and a revolver lay at the unfortunate man's feet. It was clear that he had committed suicide, presumably in a moment of depression, and no inquest was deemed necessary. The unfortunate man was a native of Prince Edward Island and a brother of M. A. Brown, formerly mayor of Medicine Hat.

A. J. Nicholson sells steamship tickets of all lines. See him before booking your passage to Europe.

The M. M. Club will be entertained at the home of Miss Pratt on Wednesday evening of next week.

L. McLean, of the Rolling Mills, returned home yesterday after a few weeks business trip to the coast.

Dr. Hargrave, W. Marshall and D. Fisher are in town today on business in connection with the Rolling Mills.

Captain Kolaher, of Edmonton, will give an illustrated lecture at the Empire theatre April 19th. The title of the lecture will be "A Trip Through the British Isles," illustrated by 100 views on ancient and historical places, also a number of splendid views of the Muskoka lakes, finishing up with 17 magnificent slides of the long entitled "Holy City." The captain has travelled extensively and is thoroughly familiar with her subject which is both interesting and valuable to young and old.
